

Front End Developer

Location: Mumbai

Zaya is an education technology consulting firm focused on developing innovative solutions for the most challenging problems in learning and education.

Key requirements:

- Experience leading development of complex and highly responsive mobile applications that have been successfully delivered to customers
- 2+ years of professional software development experience
- 2+ years of Android application development experience
- Proficiency using Python, HTML, CSS and JavaScript in mobile applications
- Strong knowledge of CS fundamentals including data structures, algorithms and complexity analysis
- Knowledge of Android software design patterns, including ones needed to develop connected applications with high-performing UI
- Extensive knowledge of memory management and multi-threading
- Ability to translate concept designs into user interfaces on mobile devices

Educational Qualifications:

- Bachelor's degree or higher in Computer Science or related field

Desired Skills:

- Understanding of system and application performance limits and characteristics
- Strong communication, analytical and problem solving skills

How to apply:

Email your resume and a cover letter to careers@zaya.in with "Front End Developer" in the subject line. Please include a short summary explaining why you want to work with us and how your skills would benefit our efforts in your cover letter.

Depending on the position you are applying for, you may be called upon to show past work or send us professional, or character references. Applications are reviewed on a rolling basis.
